Israel Department

Dear Neil,

On behalf of the Israeli YAD group members of Partnership 2000 Karmiel- Misgav, I would like to thank you for a most interesting and inspiring green line tour and workshop during our weekend seminar in Jerusalem, March 19-20. Reading the comments some of the members wrote in the YAD blog emphasis the significant for Israelis to see and understand the meaning of real life in such a complex environment. Standing and watching closely at the security fence and wall made a strong and real impact and none of the group members could stay indifferent.

The following Media session regarding "Israel in the Media" was indeed stimulating and educating, what we see on TV is not always the full and true story.

Thanks for the skills and time you shared with us and we hope to meet again very soon.

Rebecca and Ronny
